

MEZZANINE SAFETY GATE

Clear Aisle Model

MEETS OSHA
REQUIREMENTS

The Fall-Guard Clear Aisle is a revolutionary breakthrough for reducing the potential for falls and other accidents associated with mezzanine loading areas while taking up only 10" of aisle space.

MODEL FG-04-CA

- Provides access to the work area from three sides.
- Requires only 10" of space on the mezzanine ledge when "corral" is in the raised position
- Ergonomic, counterbalanced operation
- Maximum load dimensions: 80"H x 60"W x 60"D
- Durable, welded steel construction
- Shipped partially assembled for ease of installation
- Patent pending

Model FG-04-CA Gate:
Starting at \$3,775

When "corral" is lowered, ledge gates swing open. Worker is blocked from staging area.

When "corral" is raised, ledge gates swing closed. Worker has access to load. Fall potential is eliminated.
